Maximum Marks	1 Mark

Demonstration of Proposed Features

Status below reflects the available project context and the nine visualisations described. Verify each item against the published dashboard before final submission; do not mark a feature demonstrated unless you can show it.

S.No	Feature Name	Description	Status	Demonstrated	Remarks
1	Sales by category	Horizontal bar chart of SUM(Annual Sales Units) by vehicle category.	Implemented — reported	Yes, if visible in published dashboard	Confirm labels and sorting.
2	Top 10 EV manufacturers	Top-10 manufacturer ranking by summed annual sales.	Implemented — reported	Yes, if visible in published dashboard	Confirm Top 10 filter and descending sort.
3	Battery technology mix	Pie chart grouped by battery type using vehicle-record counts.	Implemented — reported	Yes, if visible in published dashboard	Describe as record mix, not sales market share.
4	Driving range by category	Category comparison using average range in kilometres.	Implemented — reported	Yes, if visible in published dashboard	Confirm AVG(Range Km).
5	Manufacturing country map	Geographic view grouped by manufacturing country.	Implemented — reported	Yes, if visible in published dashboard	State the size/colour measure used.
6	Customer satisfaction	Category comparison using average customer rating.	Implemented — reported	Yes, if visible in published dashboard	Confirm rating scale and average aggregation.
7	Sales by model year	Line chart of summed annual sales by model year.	Implemented — reported	Yes, if visible in published dashboard	Confirm model-year order.
8	Battery capacity vs range	Scatter plot of battery capacity and range, coloured by battery type.	Implemented — reported	Yes, if visible in published dashboard	Mention dense marks and that correlation does not prove causation.
9	Sustainability impact	Category comparison using average reported CO_2 saved per year.	Implemented — reported	Yes, if visible in published dashboard	Label as dataset-reported values, not independently verified impact.

Feature Implementation Summary

Measure	Value
Total Features Proposed	9
Total Features Implemented	9 reported in the project context; verify in workbook
Total Features Demonstrated	[Enter count after recording / live demo]
Overall Implementation Rate (%)	[Implemented count ÷ 9 × 100; calculate after verification]
