Project Demo Planning

This plan structures a concise walkthrough of the EV dashboard. Durations are proposed for the demo; confirm the actual team roles and final dashboard URL before presenting.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & problem statement	Explain the EV market analysis goal and the three stakeholder scenarios.	1	Divyanshu Choudhary
2	Dataset overview	Describe the CSV fields, record count and key measures used.	1	Divyanshu Choudhary
3	Sales by category and manufacturer	Show category ranking and top-10 manufacturer sales comparison.	2	Divyanshu Choudhary
4	Battery and driving range	Explain battery technology mix, range by category and capacity-vs-range scatter plot.	2	Divyanshu Choudhary
5	Geography, satisfaction and sustainability	Walk through manufacturing-country map, customer ratings, model-year sales and CO_2 savings.	2	Divyanshu Choudhary
6	Conclusion and Q&A	Summarise findings, limitations and future improvements; answer questions.	1	Divyanshu Choudhary

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the three scenarios: market strategy, automotive BI and sustainable mobility research.
2	Solution Overview	Introduce the dataset and the nine visualisations; clarify that results describe the supplied dataset.
3	Live Feature Demonstration	Navigate the published dashboard and explain what each chart answers. Use only filters that are actually configured.
4	Q&A Session	Discuss aggregation choices, missing values, limitations and planned future work.
